

# Turn Tech Upgrades into Positive Change

Businesses upgrade tech, often retiring usable devices. Donate instead for a sustainable solution that benefits people and the planet.

By having businesses choose us to process their refreshed equipment, we can deliver impact directly into the heart of communities.

## The Problem

**3.7M FAMILIES**  
are below the  
minimum digital  
living standard

**250M LAPTOPS**  
are manufactured  
annually, producing  
more CO<sub>2</sub>e than  
the airline  
industry

**1.6M TONNES**  
of e-waste is  
produced  
annually in the UK

## Our Impact

**5000 people**

connected with a device

**£760,000**

of technology gifted to  
our community

**7000 Devices**

diverted from landfill

**22 tonnes**

e-waste used or recycled

# How it works

- Contact Us**  
Email or call our team with details about your tech and your preferred pricing option.
- Receive Estimate**  
We'll provide a cost estimate and schedule a date for your devices to arrive.
- Data Wiping\* & Refurbishing**  
We securely wipe devices in compliance with UK standards. If usable, they're refurbished for community reuse; if not, they're sent to our recycling partner.
- Impact Report**  
If you've opted for an impact report, you'll receive details on e-waste diversion, CO2e savings, and inspiring stories of lives changed.

\* If your organisation requires higher-level data wiping, we work with certified ITAD partners to meet enhanced security standards.

FREE	BASIC	PREMIUM
<ul style="list-style-type: none"> <li>Arrange delivery to our Brixton office</li> <li>You handle data removal</li> <li>No reporting</li> </ul>	<ul style="list-style-type: none"> <li>Arrange delivery to our Brixton office</li> <li>We remove data</li> <li>No certification or reporting provided</li> </ul>	<ul style="list-style-type: none"> <li>Collection available</li> <li>We remove data &amp; provide certification</li> <li>Impact reports</li> </ul>
	£5 per device	£10 per device

For free or basic services, an impact report can be provided for a fixed cost of £100

## What devices do we accept?

- Windows laptops & desktops (Windows 11 compatible)
- Apple Macs (updatable to the latest macOS)
- Tablets & smartphones (iOS or Android, updatable)
- Working peripherals (keyboards, mice, webcams)
- Chargers & power adapters
- High-quality monitors (with stands or arms)

“Community TechAid were extremely easy to communicate with, and answered all of my questions. They showed me pictures of people who had received refurbished tech explained the impact of our donation. They were great, and we would definitely donate to them again.
