

CORPORATE VOLUNTEERING MAKE A REAL IMPACT WITH YOUR TEAM

Bring your team together for a hands-on volunteering day that helps tackle digital poverty and reduce e-waste in Lambeth and Southwark

What your team will do:

Jump into device repair and refurbishment! You'll experience our process from start to finish! Whether it's installing operating systems or swapping out hardware like drives and batteries.

No matter your skill level, we'll guide you through every step, making it an exciting, interactive day for your whole team

Full day (10am–4pm): £950, Half day (10am–1pm): £600

Team size: up to 12 people

Available days: Tuesdays and Wednesdays

Location: Community TechAid, 336 Brixton Road, Brixton

No technical experience needed

Refreshments provided, lunch to be taken off-site

SEE THE DIFFERENCE YOUR TEAM MAKES

Every device prepared by your team helps someone access education, employment, essential services or social connection. You'll see how much e-waste was diverted from landfill, the CO2 emissions saved, and hear stories from the people your efforts have helped.

“

It was an incredible and insightful day. Stephanie was a fab volunteering coordinator. Our team really enjoyed our day, and learnt so much. Already organising the next one!
