Prices

As a small grassroots non-for-profit organisation, we are 100% reliant upon donations. These costs go directly back into our community through staff time to turn devices around or to buy spare parts for refurbishment.

Desktop only

The Dell OptiPlex 9020 mini desktop with WIFI wireless adapter and power cable (no additional extras).

This comes with a 6 month warranty

£35

Desktop & Peripherals

The Dell OptiPlex 9020 mini desktop paired with a monitor, keyboard, mouse, webcam & relevant cables.

£65

Delivery charges

If you would like us to deliver to your organisation, this will come at a cost of £1.50 per mile

Who is eligible?

These devices are for community organisations based in Greater London to enable you to continue supporting digital skills for the community.
Please note that you must be working with the community to qualify.

Benefits and Perks

Low Cost

A refurbished computer typically costs roughly half the price of a new device with similar specs.

As a small community organisation, we understand the need to keep costs down. This is why we want to provide organisations like us with the chance to have high-spec tech at a low cost.

6 month warranty and ongoing support

Our team of technical volunteers we will be able to help answer your questions on setting up and maintenance of the desktops.

If your item has a technical defect within the first 6 months, we'll repair or replace it.

Environmentally Friendly

By buying a refurbished computer you are helping reduce environmental waste as well as reducing the number of new machines that have to be manufactured.

Many of the electronic components used are rare, expensive and environmentally toxic. They can take hundreds of years to decompose as well so ethically, we ought to do everything possible to extend their usage and recycle them to keep them out of landfill and protect our planet.

Buying refurbished can help you meet your Waste Electrical & Electronic Equipment (WEEE) obligations and count towards any ESG goals you have. We will also help you fully recycle the device when it reaches the end of its life.

If you are interested in purchasing desktop computers for your organisation or community space, please get in touch:
